

Edgemere's Premier Sepsis Rehab Program

Edgemere offers a 4-phase early mobility and walking clinical program for Sepsis that allows immediate intervention at all levels ranging from critically ill with multiple medical conditions to lesser degrees or variations in weakness and functional limitations.

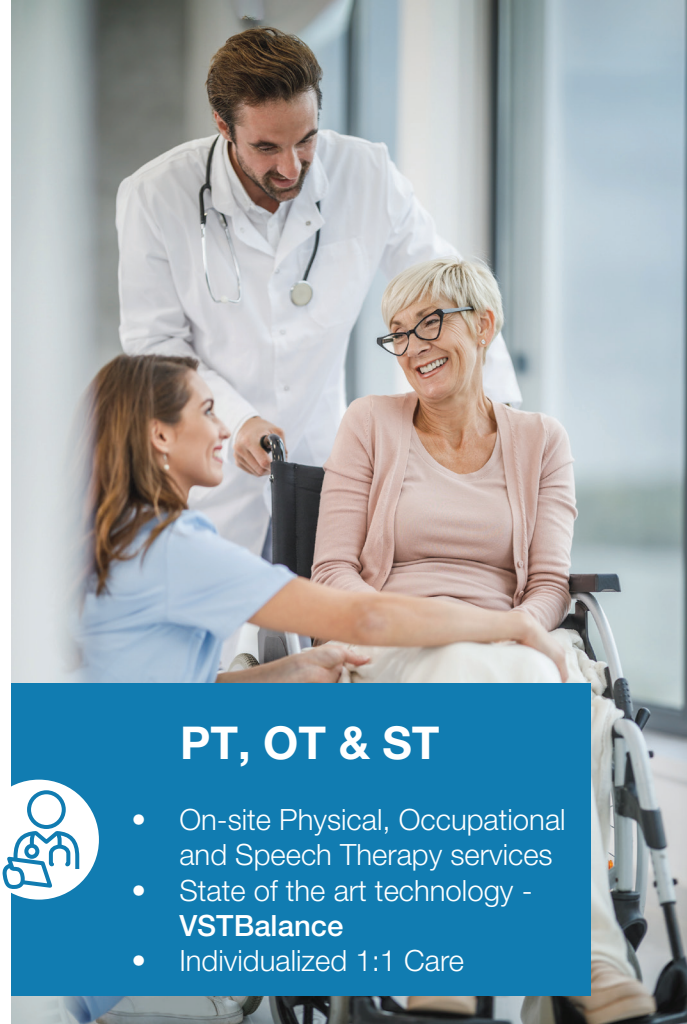

Dr. Muhammad Ali Khan

Dr. Muhammad Ali Khan, MD, FACP, is a distinguished infectious disease specialist with over three decades of expertise. As an esteemed faculty member at Presbyterian Hospital and Select Specialty Hospital in Dallas, Texas, Dr. Khan's commitment to excellence in patient care is unwavering. Board-certified by the American Board of Internal Medicine in infectious diseases and a proud member of the American College of Physicians, he merges compassion with cutting-edge medical knowledge. Outside the clinical realm, Dr. Khan finds solace in traveling and fishing, indulging his spirit for exploration and relaxation.
